SCLA / GIDI

参与者将获得持续职业发展培训证书  
A certificate will be issued for CPD requirements.

论坛语言:英文  
Language: English

## 介绍 / PREFACE

法律职业正在经受着巨大的变革和挑战。这些挑战随着新冠疫情的问题而浮现。一方面，如何运用人工智能更好地维护客户关系，维护客户关系，应对多元文化带来的挑战。此外，对于正在全球扩张的律所来说，正在面临数据安全以及数据合规的挑战，其数据处理规范，如何处理其在全球客户的数据合规也日益引起广泛的注意。在全球范围内，律所应当如何更好地提前规划弹性可扩展系统设计，能够预判未来的挑战。

The legal profession is undergoing significant changes and challenges. These challenges are surfacing with the issue of the new crown epidemic. On the one hand, there is the challenge of how to use artificial intelligence to better maintain client relationships, preserve client relations and deal with the challenges posed by multiculturalism. In addition, law firms that are expanding globally are facing the challenge of data security as well as data compliance, and their data handling norms and how to handle data compliance for their clients globally are also attracting increasingly widespread attention. How can law firms better plan ahead for resilient and scalable system designs that can anticipate future challenges in a global context?

此外，在持续发展进化的数字时代，法律与科技的融合成为显著的发展趋势，给法律的发展和进化开辟新天地。法律科技已经承担起在争端解决基质中的法律系统创新、正义理念重塑的使命，对在线纠纷解决，比如仲裁院的在线仲裁产生深刻影响，实现了国际纠纷的在线化、自动化与智能化的预防与解决。在争端解决机构中的实践又是如何？第十八届SCLA全球在线论坛-律所及争端解决机构的互联网系统建设全球论坛将于6月25日（周五）举行。

Furthermore, in the digital age, which continues to evolve, the convergence of law and technology has become a notable trend, opening up new horizons for the development and evolution of law. Legal technology has taken on the mission of innovating legal systems and reshaping the concept of justice in the matrix of dispute resolution, with a profound impact on online dispute resolution, such as online arbitration in arbitration courts, enabling online, automated and intelligent prevention and resolution of international disputes. What about the practice in dispute resolution institutions? The 18th SCLA Global Online Forum – Global Forum on Implication of Legal Tech will take place on Friday, 25 June.
